Education

University of Michigan Ann Arbor, MI
Bachelor of Science in Computer Science Dec 2025
- **Relevant Coursework:** Web Systems, User Interface Development, Database Management Systems, Data Structures & Algorithms, Software Engineering

Grand Rapids Community College Grand Rapids, MI
Associates of Arts and Sciences Apr 2022

Projects

Dance Choreography Tracker | React, Node.js, Express.js, MongoDB, Mongoose March 2026 - Present
- Built a full-stack MERN application for organizing choreography videos and tracking dance learning progress.
- Developed a React frontend supporting choreography creation, editing, deletion, filtering, and sorting by status, style, difficulty, and date.
- Designed MongoDB/Mongoose models and Express REST APIs for persistent choreography data.

Instagram-Style Social Media Web App | Python, Flask, SQL Oct 2025
- Built a full-stack social media web application using Flask and SQL supporting user authentication, posts, likes, comments, and follower relationships.
- Designed normalized relational schemas and RESTful endpoints to efficiently serve user feeds and profile pages.
- Implemented pagination, session-based authentication, and access control to ensure scalability and data integrity.

Artist Search Web App | Vue, JavaScript, Bootstrap Oct 2024
- Developed an interactive artist search application using Vue.js following MVC principles.
- Integrated iTunes REST API and implemented client-side filtering, sorting, and dynamic genre selection.
- Built audio preview playback system with track state tracking and single-instance audio control.

Work Experience

Paint Sales Associate May 2022 – Aug 2023
Home Depot Grand Rapids, MI
- Advised customers on paint selection, color matching, and application techniques while managing custom mixes in a fast-paced retail environment.

Warehouse Associate Apr 2021 – Sep 2021
UPS Grand Rapids, MI
- Maintained high throughput and accuracy while sorting and loading up to 500 packages per hour in a time-critical environment.

Skills

Languages: Python, JavaScript, TypeScript, SQL, Bash, Java, C++
Technologies: Linux, Flask, React, Node.js, Vue.js, MongoDB, Mongoose, Docker, Git, AWS

Leadership / Extracurricular

Choreographer Director / Vice President – FunKtion Dance Team Sep 2022 – Dec 2025
- Led weekly dance practice sessions for 20+ members, coordinating choreography, scheduling, and performance logistics.
- Directed 5+ large-scale performances annually, contributing to increased club visibility and membership.

Vietnamese Student Association – VSA Oct 2022 – Feb 2025
- Programmed stage lighting for VSA's annual cultural show, supporting 15+ performances and ensuring smooth execution of technical elements.
- Mentored 2 incoming members, helping them transition into leadership and technical roles within the club.
